info@andelaproducts.com

- The Andela AGB-3HD crusher has the ability to produce 30TPH of glass cullet while efficiently reducing and separating mixed glass from a commingled mix of glass, plastic and aluminum.
- The flexible impact hammers will liberate and crush glass, ceramics and other breakable materials.
- Also available as a system.
(See Systems page)

- Simple to operate and maintain
- Low power requirements for significant size reduction
- Will process a mix of glass and other materials — selective size reduction
- Big machine features with a small machine price
- Heavy duty construction
