

Andela

GLASS CLEAN-UP UNIT

Separated Residue

Single Stream Mixed Glass

Cleaned Glass Cullet

The Andela Glass Clean-Up Unit will separate glass cullet from paper shred and residue.

Simple low power solution. No vacuums or dust collection required. Access panels for maintenance.

Glass cullet and residue discharge into tip-bins, conveyors or bunkers. Integrate into your existing MRF system.

- Simple to operate and maintain
- Reasonably priced
- Durable
- Totally enclosed with access doors
